Komatsu Europe announces a major upgrade for its backhoe loaders range

Now with EU Stage V engines

Vilvoorde March 2021 — Komatsu Europe announces an EU Stage V upgrade for all its backhoe loader range. The new WB93R-8, WB97R-8, WB93S-8, and WB97S-8 now feature an EU Stage V compliant engine along with proven aftertreatment technologies. They also retain all the values of the previous models to offer a robust, reliable, and ultra-low maintenance solution to your customers.

“Following the successful introduction of the -8 range, the new Stage V compliant models brings a range of high-standard features to the Komatsu Backhoe Loader family” says Alex Visentin, Product Manager at Komatsu Europe. “With a clear focus on safety, this updated Komatsu backhoe loader range is a perfect balance between great visibility, operator comfort and productivity, which makes it an ideal match for any customer’s needs”

The Komatsu development team also listened to customers to deliver a driver-centric EU Stage V experience that keeps the unique Komatsu backhoe loader lateral exhaust pipe & compact bonnet combination, brings concert hall like cabin acoustics, and serves up a variety of all-new options that deliver exceptional customer values.

With their confident, dynamic, and purposeful stance, the Komatsu EU Stage V bakhoe loader range is sure to stand out from the crowd.
