

## Komatsu Europe International N.V. at bauma 2016

### Technology for Your Success

*Vilvoorde, January 2016* — At bauma 2016, Komatsu Europe will display more than 30 machines over two areas totalling 7.000 square meters. Several brand new models and the latest industry-leading Komatsu technologies for products and services will highlight Komatsu's continuing focus on innovation and its commitment to improve job site efficiency and lower overall costs for customers. The triannual Bauma fair, held traditionally at the Messe München hall in Munich, Germany, is expected to again attract many thousands of visitors from around the world.

#### Inside

On a 4,500 m<sup>2</sup> indoor stand, located in Hall B5 Komatsu will present its latest models, from utility to quarry and mining machines, along with a new range of attachments. Machines will include recently launched "Dash11" excavators, new wheel loaders with their "Auto digging system", and fuel saving features for all machines. Most of the excavators will highlight the range of Lehnhoff buckets and quick couplers.

The latest innovations to Komatsu technology will be featured with the launch of the new Komatsu 36 tonnes Hybrid excavator, a renewal of Komatsu's commitment to reduce the environmental impact of earthmoving machines. Also in the spotlight, Komatsu's proven concept of intelligent Machine Control, first discovered by the industry at Bauma 2013, and which has now penetrated markets worldwide, with over 2.200 units delivered. Members of Komatsu's specially trained support staff will be on hand to help interested visitors understand how a trouble free operation with lower overall costs is easily obtained with this technology.

Big visuals, videos and multiple info points will promote Komatsu money-saving options. Komtrax experts will explain how it helps customers easily and cost effectively manage a whole fleet of Komatsu machines. Komatsu Finance will show financing possibilities for customers, and the Remarketing area will present Dealer Qualified Used Equipment. Komatsu Genuine Parts and Komatsu product support will be highlighted. A cafeteria and several meeting rooms will offer perfect places for quick chats and more formal get-togethers.

#### Outside

On the large outdoor area, divided in three different sections, Komatsu will demonstrate the benefits and exclusive advantages of its intelligent system on a D61PXi-24 dozer and PC210LCi-10 excavator with a newly integrated tilt bucket. The brand new PC7000 mining shovel will be presented in a dynamic showcase. A large tent with a Driver's Bar on the ground floor will welcome all visitors to the area and, on the first floor, Komatsu Mining Germany will greet worldwide mining customers to their Mining Lounge.
