## **Komatsu Europe announces new PC17R-5 and PC20R-5 mini excavators**

*With EU Stage V engine*

**Vilvoorde October 2022** — Komatsu Europe is delighted to announce the all-new PC17R-5 & PC20R-5 conventional tail EU Stage V mini excavators. These new arrivals in the ever-expanding Komatsu range will be presented at the bauma 2022 international fair in Munich next October.

These new Komatsu machines let you benefit from an ergonomic and intuitive working environment, a lifting capacity second to none, a huge luxurious cabin with first class operator comfort, newly designed tracks that effortlessly glide over any surface, a top mounted boom cylinder (PC20MR-5) for off-the-dial digging force, easy maintenance and service, and an array of standard safety features. You can further customize the PC17R-5 and PC20R-5 with a comprehensive list of options to meet the needs of any customer.

Simone Reddi, Komatsu Europe Product Manager for mini excavators, says “These new R-5 excavators concentrate the quality and performance of the larger Komatsu construction range into a smaller package, and with their unique design concept they are sure to stand out on jobsites across Europe. The PC17R-5 is positioned to combine with the PC20R-5 to form a strong 2-models attack strategy in this all-important segment that requires high performance and easy transport”.

### **New R-5 features and benefits.**
