

## Safety & First-class operator comfort

Safety is Komatsu's number one priority. The HD785-8E0 is equipped with LED lights, ground level battery, starter and machine lockout disconnect switches. A newly designed stairway provides safe access to the cabin.

For improved safety, Komatsu KomVision is standard: it creates a real-time 360-degree bird's-eye view on the cab monitor, and eliminates any blind spots on the rear and sides of the machine.

Operator comfort on the HD785-8 includes a new ergonomically-designed cab, with a convenient control layout and a comfortable environment for more confident work and greater productivity.

The new fabric-covered, air suspension seat is adjustable to the operator's weight and height, and includes a seat heater and a ventilator as standard.

Thanks to a low noise engine, large capacity viscous cab mountings, hydro-pneumatic suspension and independent strut type suspension on the front wheels, in-cab noise levels are kept at 72 dBA.

## Easy & Safe Maintenance

Radiator cleaning becomes easy thanks to the hydraulic radiator fan with reverse mode. The ground level jump start receptacle and service centre with fast fill coupler for engine, transmission, brake oil & coolant refills further facilitates easy and safe maintenance. For safety at height, technicians can attach lanyards to tie-off points (ISO 14567) well-placed around the HD785-8.

## New Features and Benefits

- **EU Stage V emissions compliant** – peace of mind.
- **Komatsu Traction Control System (KTCS)** – maximised productivity
- **Energy saving operation** – optimised efficiency.
- **New, ergonomically designed operator cab** – improved operator comfort
- **Heated & ventilated air suspension seat** – improved operator comfort
- **Service centre with fuel, oil & coolant fast fill connection (Wiggins)** – maximum uptime, maximum productivity, maximise profit
- **KomVision surround view, with radar** - for industry leading safety – Peace of Mind
- **Engine secondary and emergency shut down switches** – safety, peace of mind
- **Full LED lighting system** - safety, peace of mind
- **KOMTRAX Step 5** – ultimate asset management
- **Updated KOMTRAX-Plus** – convenient machine follow-up & data management
- **Komatsu CARE** – peace of mind
