Demolition excavators

Engine power

123 kW (165 HP) - 270 kW (362 HP)

Operating weight

23215 - 49090 kg

Attachment weight

2550 - 5750 kg

Demolition excavators

Outstanding productivity

- Komatsu Integrated Attachment Control
- Komatsu original hydraulic system, controllers and engine management
- Komtrax Fleet Management system
- Komatsu Care optimised maintenance program
- Komatsu demolition attachments

Engine power

**123 kW (165 HP) -
270 kW (362 HP)**

Operating weight

23215 - 49090 kg

Attachment weight

2550 - 5750 kg

Exceptional demolition performance

Work equipment

- Mono boom options (PC210 - PC490)
- Straight boom options (PC240 - PC490)
- Two-piece boom options (PC240 & PC290)
- Choice of arm lengths
- Two additional hydraulic circuits, including factory installed attachment drain line

First-class comfort

- Pressurised, low noise operator cab
- Roof window wash/wipe system
- Joysticks with proportional attachment control
- Multi-functional utility bar for personal accessories, including dual (USB-A and USB-C) charging ports
- Fully air suspended operator console with heated, high back seat
- Premium seat option with auto weight adjustment, lumbar support, climate control system with optional multi position armrests and ergonomic control levers

Heavy duty protection

- Heavy duty undercovers and side guards
- Attachment cylinder guard (optional)
- Reinforced bucket linkage
- Boom lamp protection guard
- Full length track roller guards (optional)

Safety equipment

- Special Demolition Safety SpaceCab™ cab, fully complies with with all relevant European regulations
- ISO 10262 Level 2 certified FOPS with hinged front guard
- EN356 P5A high impact protection front and roof window glass
- KomVision surround view system
- Neutral position detection system

Komatsu Care program
(regional differences apply)

Demolition excavators

Komatsu demolition excavators

Only Komatsu's factory original demolition machines carry the "Demolition" logo, confirming their compliance with relevant European regulations. With multiple safety systems built in as standard, first class operator comfort, and a range of heavy duty guards, Komatsu demolition machines are ready to go straight to work on your demolition projects. The Komatsu original hydraulic and control system combined with the integrated attachment control system guarantees smooth, precise operation for great productivity whatever the task.

The standard Komatsu Care maintenance package can be combined with a range of extended warranty programmes to ensure your Komatsu demolition machine maintains its performance over the long term.

First-class comfort

Enhanced work environment

Designed to prioritise both productivity and operator well-being, the Komatsu crawler excavator cab features thoughtful ergonomics with high-visibility handrails, and improved interior LED lighting. Stepping inside reveals a sleek, dark colour scheme complemented by an effortlessly cleanable floor mat. Upgraded UV-protective tint on the cab rear window minimises sun exposure and helps maintain a cool working environment.

Future-proof customisable workspace

The operator cab offers extensive customisation possibilities. A multi-functional utility bar allows for adding personal accessories such as additional monitors or tablets, while dual USB ports (USB-A & USB-C) enable mobile device charging.

Convenient and secure entry to the spacious, well-insulated, low-noise cab

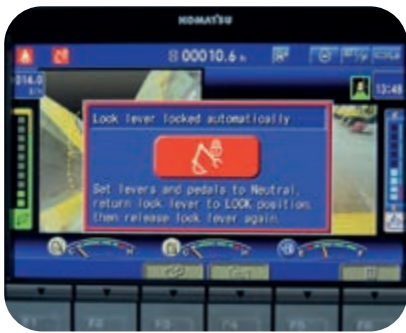

Multi-functional utility bar (items shown are for illustrative purposes only)

Optional premium seat with top quality cushioning, auto weight adjustment, lumbar support, climate control system, available with optional multi-position armrests and ergonomic control levers

Demolition excavator equipment

Operator convenience

Komatsu's integrated attachment control system matches the hydraulic power delivered by the machine to the power required by the attachment for maximum productivity. With 15 memory settings, the system allows the operator to get the most out of the machine in any task.

Safety as standard

Komatsu demolition machines include high impact protective glass (compliant with EN356 Gr. P5A) as standard on the front and roof window. The standard-fit Neutral Detection System is especially valuable for demolition contractors due to the restricted space on many work sites.

All-round visibility

LED lights fitted as standard around the machine work seamlessly with the KomVision surround view system to ensure work can continue under any light conditions with minimum risk.

Extra heavy duty, wrap around type side protection (15 mm). Bolted to each side of the upper structure, offering protection from debris on the ground or side impact.

Heavy duty undercovers (9 mm) fully enclose the upper structure's underside for enhanced protection against debris on the ground.

Attachment cylinder guard (option), reinforced bucket linkage and details like heavy duty boom lamp protection guards round off the complete protection package.

The sophisticated design of the OPG grids combines the maximum view for the operator with full ISO10262 Level II compliant falling object protection.

Quality you can rely on

Komatsu-quality

Using the latest design & development methods with a thorough test programme, Komatsu's global know-how produces equipment to meet your highest standards. All major components are designed and directly manufactured by Komatsu and essential machine functions are perfectly matched to create precise, powerful and productive demolition machines.

Rugged design

Durability is the cornerstone of Komatsu's philosophy. Adding to the fundamental strength of Komatsu machines, the demolition range includes a reinforced bucket linkage focused on handling demolition attachments. The fully enclosed underside is protected by 9 mm thick plates with 15 mm thick wrap around side protection.

Extensive support network

The extensive Komatsu distribution and dealer network is ready to keep your demolition machines in optimum condition. Customised servicing packages are available, with express spare parts availability to make sure your Komatsu demolition machine continues to deliver peak productivity.

Durable and reliable undercarriage design for maximum protection

Cast boom foot and single piece boom plates

Komatsu demolition attachments

Komatsu provides a comprehensive line of demolition attachments, including pulverisers, crushers, grapples and breakers, for your demolition work site.

Pulverisers

Static pulveriser for 16 - 60 t machines

Model JRSP		210-1	290-1	360-1	490-1
Machine class	t	16 - 25	20 - 30	25 - 35	32 - 60

A Max. digging height	11295 mm	11880 mm	12065 mm
B Max. dumping height	8315 mm	8785 mm	8985 mm
C Max. digging depth	5870 mm	6430 mm	6715 mm
D Max. vertical wall digging depth	4535 mm	5250 mm	5440 mm
E Max. digging depth of cut for 2.44 m level	5775 mm	6340 mm	6630 mm
F Max. digging reach	10120 mm	10675 mm	10945 mm
G Max. digging reach at ground level	9935 mm	10495 mm	10770 mm
H Min. swing radius	3190 mm	3055 mm	3110 mm
Max. recommended attachment weight (LC)*	3750 kg	3450 kg	3300 kg
Max. load at arm end pin (LC)	4640 kg	4190 kg	4090 kg
Max. recommended attachment weight (NLC)*	3400 kg	3100 kg	2950 kg
Max. load at arm end pin (NLC)	4640 kg	3890 kg	3790 kg

* Attachment manufacturer is responsible for recommending suitable attachment based on published machine performance data.

PC360LC/NLC-11

Machine dimensions

	Mono boom		Straight boom	
	PC360LC-11	PC360NLC-11	PC360LC-11	PC360NLC-11
A Overall width of upper structure	3050 mm	3050 mm	3050 mm	3050 mm
Overall width of upper structure (excluding side guards)	2995 mm	2995 mm	2995 mm	2995 mm
B Overall height of cab	3365 mm	3365 mm	3365 mm	3365 mm
Overall height of cab (excluding OPG)	3160 mm	3160 mm	3160 mm	3160 mm
C Overall length of basic machine	5885 mm	5885 mm	5885 mm	5885 mm

Standard and optional equipment

Engine and related parts

Komatsu turbocharged common rail direct injection diesel engine	●
EU Stage V compliant	●
Suction type cooling fan with radiator fly screen (PC490 fitted with reversible type fan)	●
Automatic engine warm-up system	●
Engine overheat prevention system	●
Fuel control dial	●
Auto-deceleration function	●
Adjustable idle shutdown	●
Engine key stop	●
Engine ignition can be password secured on request	●
Diesel fuel, conforming to EN590 Class 2/Grade D. Paraffinic fuel capability (HVO, GTL, BTL), conforming to EN 15940:2016	●

Service and maintenance

Automatic fuel line de-aeration	●
Double element type air cleaner with dust indicator and auto dust evacuator	●
Komtrax – Komatsu wireless monitoring system (4G)	●
Komatsu Care program (regional differences apply)	●
Multifunction video compatible colour monitor with Equipment Management and Monitoring System (EMMS) and efficiency guidance	●
Toolkit	●
Service points	●
Automatic greasing system (mono boom specifications)	○

Undercarriage

Track roller guards	●
Track frame under-guards	●
Triple grouser shoes	●
Full length track roller guards	○

Drives and brakes

Hydrostatic, 3-speed travel system with automatic shift and planetary gear type final drives, and hydraulic travel and parking brakes	●
PPC control levers and pedals for steering and travel	●

Cabin

Demolition specification Safety SpaceCab™, with Komatsu high visibility ISO 10262 level 2 FOPS guards. Fixed, one piece front window. Front and roof window fitted with high impact protective laminated glass, compliant with EN356 Grade P5A, in accordance with relevant European regulations	●
Heated, high-back air-suspended seat with lumbar support, console mounted height adjustable arm rests, and retractable seat belt	●
Automatic climate control system	●
12/24 Volt power supplies	●
USB-A / USB-C power supplies	●
Utility bar	●
Beverage holder and magazine rack	●
Hot and cool box	●
DAB+ radio with Bluetooth®, USB, AUX and hands-free kit	●
Roof window wiper/wash system	●
Premium comfort seat	○
Advanced, multi-adjustable ergonomic arm rests (only with Premium comfort seat)	○
Lower wiper	○

Hydraulic system

Electronic closed-centre load sensing (E-CLSS) hydraulic system (HydrauMind)	●
Pump and engine mutual control (PEMC) system	●
6-working mode selection system; power mode, economy mode, breaker mode, attachment power and attachment economy mode, and lifting mode	●
PowerMax function	●
PPC wrist control levers for arm, boom, bucket and swing, with sliding proportional control for attachments and 3 auxiliary buttons	●
Prepared for hydraulic quick-coupler	●
Additional hydraulic functions	●
Attachment drain line	●
Komatsu Integrated Attachment Control (KIAC)	●
Super ergonomic short stroke, low effort control levers (only with Premium comfort seat)	○

Work equipment

Reinforced bucket linkage	●
Mono boom	○
Straight boom (PC240/290/360/490)	○
Two-piece boom (PC240/290)	○
Bucket cylinder guard	○
Komatsu buckets	○
Komatsu attachments	○

Safety equipment

KomVision surround view system	●
Electric horn	●
Overload warning device	●
Audible travel alarm	●
Boom safety valves	●
Arm safety valve	●
Large handrails	●
Rear-view mirrors (for cab adjustable without tools)	●
Battery main switch	●
ROPS compliant to ISO 12117-2:2008	●
Emergency engine stop switch	●
Seat belt caution indicator	●
Neutral position detection system	●
OPG Level II front guard (FOPS), hinged type	●
OPG Level II top guard (FOPS)	●

LED lighting system

Working lights: 2 revolving frame	●
Coming home light function	●
Additional working lights (#1): 2 cab roof (front), 1 cab roof (rear), 1 boom (r.h.), 1 counterweight, beacon	○
Additional working lights (#2): 4 cab roof (front), 1 cab roof (rear), 1 boom (r.h.), 1 counterweight, 2 revolving frame (l.h. + r.h.), beacon	○

Other equipment

Standard counterweight	●
Remote greasing for swing circle and pins	●
Electric refuelling pump with automatic shut-off function	●
Heavy duty side impact protection	●
Heavy duty protection underside of upperstructure	●
Biodegradable oil for hydraulic system	○
Customised paint	○

Further equipment on request

- standard equipment
- optional equipment

This specification sheet may contain attachments and optional equipment that are not available in your area. Please consult your local Komatsu distributor for those items you may require. Materials and specifications are subject to change without notice.
