

KOMATSU

PW168-11

Hydraulic wheeled excavator

Engine power
110 kW / 148 HP @ 2000 rpm

Operating weight
15775 - 18115 kg

Bucket capacity
max. 1.13 m³

Short tail swing

Reduced tail swing: -345 mm
vs standard tail model

Save costs

Reduced fuel consumption:
-5% vs previous model

Engine power

110 kW / 148 HP @ 2000 rpm

Operating weight

15775 - 18115 kg

Bucket capacity

max. 1.13 m³

High versatility, low transportation height and safe performance in tight spaces

Powerful and environmentally friendly

- EU Stage V engine
- Adjustable idle shutdown
- 8000 h KDPF cleaning interval
- Excellent travel performance
- High lifting capacity
- HVO diesel fuel ready

Total versatility

- Ideal for a wide range of applications
- Additional hydraulic circuit
- Komatsu Integrated Attachment Control (KIAC) (option)
- A wide choice of options
- Factory-equipped for tiltrotator use
- Prepared for 3D aftermarket systems

First-class operator comfort

- Premium air-suspended operator seat with integrated joystick consoles (option)
- Boom suspension system (ECSS) (option)
- Low noise level inside and outside
- Joystick steering system (option)
- Automatic digging brake (option)

Safety first

- Compact design with short tail swing radius
- KomVision surround view system
- LED lighting standard
- Safe access to cab and maintenance

Easy maintenance

- Ground level service access
- Centralised greasing system
- User-friendly location of the electric refuelling pump
- Simple access to the AdBlue® tank
- Komatsu Care included

Digital assistance & guidance

- Komtrax – Komatsu wireless monitoring system
- Smart Construction 3D Machine Guidance (option)

Higher productivity

Along with its compact size, the PW168-11 features an unrivalled lifting performance. The combination of power, weight distribution, convenient dimensions and complete control makes it the top choice for heavy-duty lifting applications, simple excavating tasks in narrow alleys, and for road and sewer construction sites.

Komatsu fuel-saving technology

Engine management is enhanced. The variable speed matching of the engine and hydraulic pumps guarantee efficiency and precision during single and combined movements. A viscous clutch enables variable cooling fan speed to further reduce fuel consumption.

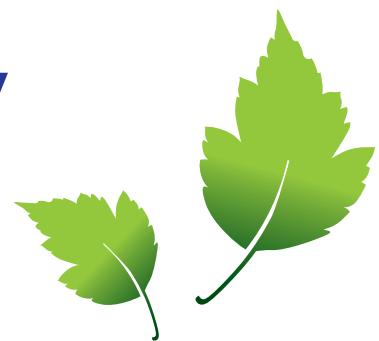

Adjustable idle shutdown

The Komatsu auto idle shutdown automatically turns off the engine after it idles for a set period of time. This feature can easily be programmed from 5 to 60 minutes, to reduce unnecessary fuel consumption and exhaust emissions, and to lower operating costs. An Eco-gauge and the Eco guidance tips on the cab monitor further encourage efficient operations.

Powerful and environmentally friendly

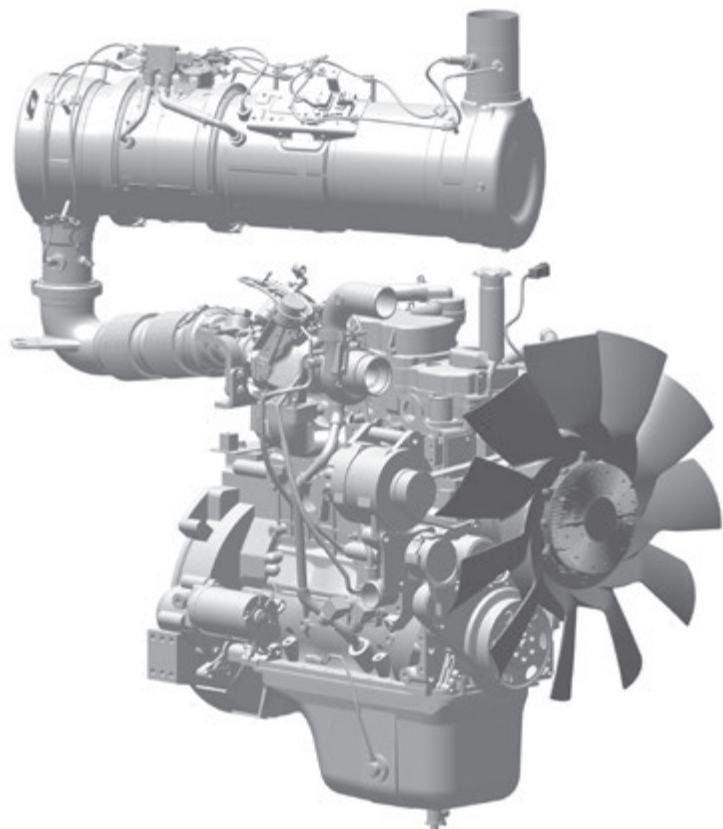

Komatsu EU Stage V

The Komatsu EU Stage V engine is productive, dependable and efficient. With ultra-low emissions, it provides a lower environmental impact and a superior performance to help reduce operating costs and lets the operator work in complete peace of mind.

Heavy-duty aftertreatment

The aftertreatment system combines a Komatsu Diesel Particulate Filter (KDPF) and Selective Catalytic Reduction (SCR). The SCR injects the correct amount of AdBlue® into the system at the proper rate to break down NOx into water (H₂O) and non-toxic nitrogen gas (N₂).

HVO diesel fuel ready

Committed to reducing CO₂ emissions, Komatsu diesel engines are compatible with paraffinic fuels (HVO, GTL, BTL) as per EN 15940:2016. All new wheeled excavators come with an initial fill of HVO diesel directly from the factory.

Eco-gauge, Eco guidance and fuel consumption gauge

ECO guidance record

Fuel consumption history

Ideal for a wide range of applications

Powerful and precise, the Komatsu PW168-11 is equipped to efficiently carry out any task your business requires. On big sites or small, for digging, trenching, landscaping or site preparation, the Komatsu original equipment hydraulic system always ensures maximum productivity and control.

Additional hydraulic circuit

To allow the use of many attachments, such as buckets, breakers or clamshell buckets, an additional hydraulic circuit controlled by a sliding joystick button is standard on the PW168-11. To further increase versatility and flexibility, a second optional auxiliary circuit and an optional hydraulic quick-coupler actuation are also available. In combination with the Komatsu Integrated Attachment Control (KIAC), changing and operating different attachments becomes child's play.

Boom suspension system (ECSS)

An optional electrical controlled suspension system (ECSS) for the boom provides a significant increase in comfort when traveling over bumps.

Total versatility

PW168-11

Tiltrotator preparation

The PW168-11 comes factory-equipped as standard for use with a tiltrotator. With an open system design, the machine can be made even more productive and easily fitted with a tiltrotator of your choice. Tools with high hydraulic flow demands can be used simultaneously with a tiltrotator and full hydraulic quick couplers, thanks to the powerful second auxiliary circuit.

Komatsu Integrated Attachment Control (KIAC) (option)

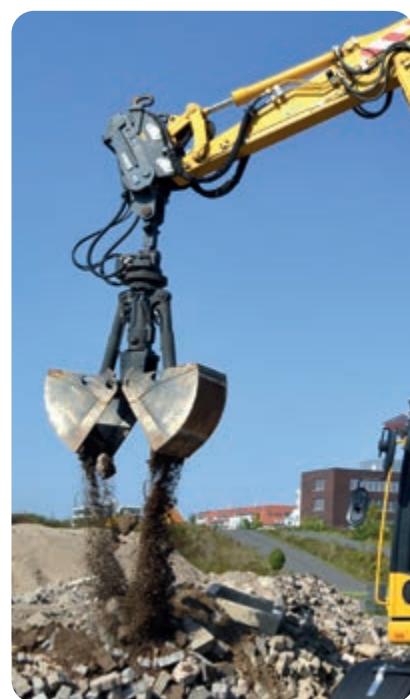

For fast and safe tool changes without leaving the cab, the settings for oil flow and pressure of up to 15 hydraulic attachments are available as presets directly on the monitor panel. Komatsu Integrated Attachment Control (KIAC) includes adjustments for the first and second (optional) hydraulic circuits. Selecting the breaker mode automatically cuts all pressure in the return line.

Komatsu Integrated Attachment Control (KIAC)

Adjustable oil flow

Total versatility

Standard or wide axles

No matter the job, with a small turning radius and excellent traction the axles are built for a maximum performance. For even better stability a 2750 mm wide axle is available. If more traction is needed, an optional 35% differential lock helps to get over rough terrain. To keep the machine cleaner, robust fenders are also available as option.

Trailer hitch

For increased versatility, the PW168-11 can be equipped with either a ball type hitch or a truck type automatic hitch, for trailers up to 7.5 tonnes with an overrun brake. All necessary electric and hydraulic hook-ups are provided, including two auxiliary undercarriage circuits for dumping or tail-gate operation. These trailer functions can be operated from the cab joysticks.

Automatic digging brake

The optional digging brake automatically activates the service brake and oscillation lock when the machine stops, and it releases them when the machine accelerates again. The operator can fully focus on the job with no need to step on the brake.

Ergonomically designed switches that light up for safe and easy night operation

The standard telescopic steering wheel is comfortably adjustable in height and reach

A safe work environment

The SpaceCab™ provides an ergonomic and quiet work environment, with an outstanding view of the jobsite. ROPS certified, it was specifically designed by Komatsu for hydraulic excavators, with a reinforced pipe-structured framework set up on viscous damper mounts for low vibration levels.

Premium comfort seat (option)

The premium comfort seat comes with suspended joystick consoles, top quality cushioning, auto weight adjustment, pneumatic lumbar support and a climate control system for perfect seat temperature adjustment.

Low-noise design

Komatsu wheeled excavators have low external noise levels, making them ideal for confined spaces and urban areas. Sound insulation and absorbing materials reduce cabin noise to levels similar to an executive car.

Increased operator convenience

With a DAB+ radio with Bluetooth®, USB and hands-free kit, 12 V and 24 V power supplies, the cab offers maximum convenience. The automatic air conditioner allows the operator to easily and precisely set the cab's atmosphere.

First-class comfort

Easy operation

The Komatsu PW168-11 features an operational concept that puts full control of the machine right at the operator's fingertips. Different camera views, undercarriage attachments and the manual axle lock can all be actuated by buttons on top of the operational levers. Without removing the hand from the joystick, the operator can switch from boom operation to undercarriage control for complete and precise control over the parallel dozer blade.

Widescreen monitor

Installed with a choice of 26 languages, the widescreen monitor with simple switches and multifunction keys gives fingertip access to a large range of functions and operating info.

Joystick steering

With the optional joystick steering the operator can precisely fingertip control the machine on any jobsite. This allows the easy combined operation of driving and working with the attachment simultaneously.

Excellent visibility

Perfect visibility from cabin through large windows, mirrors and four standard mounted KomVision cameras with 270° surround view.

Safety first

Safe lifting operations

The centrally positioned slewing ring and rear engine provide optimal weight distribution, ensuring equal lifting capacities at both the front and rear while maintaining permissible axle loads across all equipment variants.

Easy & safe transport to the next job site

With a low construction height of just 3.1 meters, the PW168-11 is easily transportable on standard low loaders with a loading height of up to 4 meters. This design also lowers the machine's center of gravity, enhancing lifting performance and driving stability.

KomVision

With a series of high definition networked cameras fitted on the machine, KomVision provides a crystal clear, real-time bird's eye view of the immediate surroundings on the widescreen cab monitor. The operator can quickly and easily check the machine's vicinity prior to making any movement, and focus on the work at hand even in low light conditions.

Optimal jobsite safety

Multiple safety features minimise accident risk in and around the machine. Clearly marked steps and handrails ensure safe access, while a neutral detection system for work equipment levers, a seat belt warning indicator, and an audible travel alarm enhance job site safety. Additionally, durable anti-slip plates with high-friction coverings provide long-term traction performance.

Safe operation in confined areas

With its short tail, the PW168-11 is ideally suited for operations in the tightest of spaces. Thanks to its minimal tail swing radius, it can work close to obstacles, allowing for minimal barriers around the working area.

Full LED lighting for improved visibility

Handrails and anti-slip plates for convenient and safe maintenance access

Digital assistance & guidance

The way to higher productivity

Komtrax turns telematics data into actionable insights for your fleet and equipment, empowering your business to make well-informed, data-driven decisions. By creating a tightly integrated web of support, Komtrax allows for proactive and preventive maintenance to minimise downtime and facilitate peak machine performance.

Smart Construction 3D Machine Guidance

The optionally available Smart Construction 3D Machine Guidance kit provides customers with a simple and accessible 3D GNSS system, allowing precise digging capabilities. 3D machine guidance uses technology, such as sensors, GPS and computers to improve digging accuracy. It works by comparing where the bucket is in the real world to a 3D digital model, essentially giving operators a virtual guide to assist them in their work. Additionally, it comes with a payload meter option and a customisable safety zone feature.

Easy maintenance

Simple and convenient service

Ground level access ensures convenient daily service. Filters are centralised and long service intervals keep machine downtime to a minimum.

Easy radiator access

Thanks to a side-by-side cooler arrangement, the aftercooler and hydraulic oil radiator can be cleaned easily and repaired individually in case of damage.

Electric refuelling pump

Standard equipment on all PW168-11 includes an automatic shut-off fuelling pump that allows easy refuelling from a barrel.

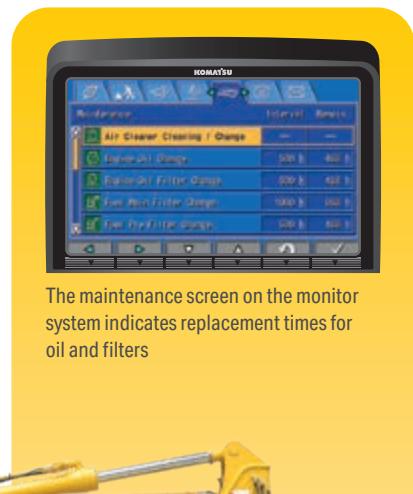

Komatsu Care

Komatsu Care is a maintenance program that comes as standard with your new Komatsu machine. It covers factory-scheduled maintenance, performed with Komatsu Genuine parts by Komatsu-trained technicians. It also offers extended coverage of the Komatsu Diesel Particulate Filter (KDPF) and of the Selective Catalytic Reduction (SCR). Please contact your local Komatsu distributor for terms and conditions.

Remote greasing bar

The PW168-11 features a centralised system that facilitates the regular greasing of the boom. An optional fully automatic greasing system can handle the regular and proper greasing of the complete machine – prolonging the lifetime and increasing the resale value of the excavator.

The maintenance screen on the monitor system indicates replacement times for oil and filters

Specifications

PW168-11E1

Engine

Model	Komatsu SAA4D107E-5
Type	Common rail direct injection, water-cooled, emissionised, turbocharged, after-cooled diesel
Engine power	
at rated engine speed	2000 rpm
ISO 14396	110 kW / 148 HP
ISO 9249 (net engine power)	106 kW / 142 HP
No. of cylinders	4
Bore × stroke	107 × 124 mm
Displacement	4.5 l
Air filter type	Double element type with monitor panel dust indicator and auto dust evacuator
Cooling	Suction type cooling fan with radiator fly screen
Fuel	Diesel fuel, conforming to EN590 Class 2/ Grade D. Paraffinic fuel capability (HVO, GTL, BTL), conforming to EN 15940:2016

Hydraulic system

Type	HydrauMind. Closed-centre load sensing system with pressure compensation valves
Additional circuits	Depending on the specification up to 2 additional proportional control & quick-coupler circuits can be installed
Main pump	Variable displacement piston pump supplying boom, arm, bucket, swing and travel circuits
Maximum pump flow	295 l/min
Relief valve settings	
Implement	380 kg/cm ²
Travel	420 kg/cm ²
Swing	290 kg/cm ²
Pilot circuit	36 kg/cm ²

Swing system

Type	Axial piston motor driving through planetary double reduction gearbox
Swing lock	Electrically actuated wet multi-disc brake integrated into swing motor
Swing speed	0 - 11.5 rpm
Swing torque	43 kNm

Steering system

Steering control	Hydraulic steering system supplied from a separate gear pump and controlled through LS orbitrol & priority valves
Minimum turning radius	6800 mm

Brake system

Type	Dual circuit hydraulic braking system supplied from a separate gear pump
Service brakes	Pedal actuated wet multi-disc brakes integrated into the axle hubs
Parking brake	Electrically actuated wet multi-disc "spring actuation hydraulic release" brake integrated into the transmission

Transmission

Type	Fully automatic power shift transmission with permanent 4 wheel drive
Travel motors	One variable displacement axial piston motor
Maximum pressure	380 bar
Travel modes	Automatic + 3 travel modes
Max. travel speeds	
Hi / Lo / Creep	35.0 / 10.0 / 2.5 km/h
	A max. speed restriction of 20 km/h is available as an option
Maximum drawbar pull	10900 kg
Axle oscillation	8° Lockable in any position from the operator cab

Service refill capacities

Fuel tank	267 l
Radiator	22 l
Engine oil	18 l
Swing drive	5.5 l
Hydraulic tank	90 l
Transmission	3.0 l
Front differential	9.5 l
Rear differential	12.4 l
Front axle hub	2.5 l
Rear axle hub	2.5 l
Swing pinion grease bath amount	9.0 l
AdBlue® tank	57.7 l

Environment

Engine emissions	Fully complies with EU Stage V exhaust emission regulations
Noise levels	
LwA external	99 dB(A) (2000/14/EC Stage II)
LpA operator ear	69 dB(A) (ISO 6396 dynamic test)
Vibration levels (EN 12096:1997)	
Hand/arm	≤ 2.5 m/s ² (uncertainty K = 0.34 m/s ²)
Body	≤ 0.5 m/s ² (uncertainty K = 0.16 m/s ²)
Contains fluorinated greenhouse gas HFC-134a (GWP 1430). Quantity of gas 0.9 kg; CO ₂ equivalent 1.29 t	

Operating weight (appr.)

Undercarriage attachment type	Mono boom	Two-piece boom
Without	15775 kg	16030 kg
Rear blade	16520 kg	16780 kg
Rear outrigger	16815 kg	17075 kg
2 outriggers + blade	17560 kg	17820 kg
4 outriggers	17855 kg	18115 kg

Operating weight, including specified work equipment, 2500 mm arm, operator, lubricant, coolant, full fuel tank, bucket (475 kg) and the standard equipment.

A – Reach from swing center

B – Bucket hook height

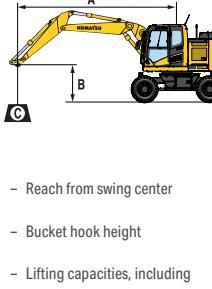

C – Lifting capacities, including bucket linkage (136 kg) and bucket cylinder (96 kg)

When removing linkage or cylinder, lifting capacities can be increased by their respective weights.

* Load is limited by hydraulic capacity rather than tipping. Ratings are based on ISO standard 10567. Rated loads do not exceed 87% of hydraulic lift capacity or 75% of tipping load.

A - Reach from swing center

B - Bucket hook height

C - Lifting capacities, including bucket linkage (136 kg) and bucket cylinder (96 kg)

When removing linkage or cylinder, lifting capacities can be increased by their respective weights.

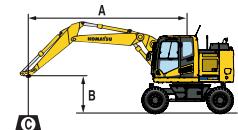

* Load is limited by hydraulic capacity rather than tipping. Ratings are based on ISO standard 10567.

Rated loads do not exceed 87% of hydraulic lift capacity or 75% of tipping load.

Lifting capacity / mono boom / undercarriage width 2.75 m

Without stabiliser

A – Reach from swing center

B – Bucket hook height

C – Lifting capacities, including bucket linkage (136 kg) and bucket cylinder (96 kg)

front

- Rating at maximum reach

When removing linkage or cylinder, lifting capacities can be increased by their respective weights

A – Reach from swing center

B – Bucket hook height

C – Lifting capacities, including bucket linkage (136 kg) and bucket cylinder (96 kg)

* Load is limited by hydraulic capacity rather than tipping. Ratings are based on ISO standard 10567. Rated loads do not exceed 87% of hydraulic lift capacity or 75% of tipping load.

When removing linkage or cylinder, lifting capacities can be increased by their respective weights.

A – Reach from swing center
B – Bucket hook height
C – Lifting capacities, including bucket linkage (136 kg) and bucket cylinder (96 kg)

– Rating over front
 – Rating over side
 – Rating at maximum reach

When removing linkage or cylinder, lifting capacities can be increased by their respective weights.

* Load is limited by hydraulic capacity rather than tipping. Ratings are based on ISO standard 10567. Rated loads do not exceed 87% of hydraulic lift capacity or 75% of tipping load.

Standard and optional equipment

Engine

Komatsu SAA4D107E-5 turbocharged common rail direct injection diesel engine	●
EU Stage V compliant	●
Suction type cooling fan	●
Automatic engine warm-up system	●
Engine overheat prevention system	●
Fuel control dial	●
Auto-deceleration function	●
Adjustable idle shutdown	●
Engine ignition can be password secured on request	●
Batteries 2 × 12 V / 125 Ah	●
Alternator 24 V / 85 A	●
Starter motor 24 V / 4.5 kW	●

Hydraulic system

Electronic closed-centre load sensing (E-CLSS) hydraulic system (HydrauMind)	●
Pump and engine mutual control (PEMC) system	●
6-working mode selection system; Power, Lifting/Fine Operation, Breaker, Economy, Attachment Power and Attachment Economy	●
PowerMax function	●
Adjustable PPC wrist control levers for arm, boom, bucket and swing, with sliding proportional control for attachments and 5 auxiliary buttons, with FNR switch	●
Additional hydraulic circuit (HCU-B)	●
Additional hydraulic circuit (HCU-C)	○
Clamshell bucket activation	○
Komatsu Integrated Attachment Control (KIAC)	○
Boom suspension system (ECSS)	○
Prepared for hydraulic quick-coupler	○
Drainage line	○

Undercarriage

Parallel blade (front and/or rear) with cylinder protection	○
2 or 4 outriggers with cylinder protection, individually adjustable	○
Limited-slip differential (LSD)	○
Twin tyres 10.00-20 16 PR	○
Twin tyres (solid tyres) 10.00-20	○
Twin tyres 315/70 R22.5	○
Single tyres 445/70 R19.5	○
Single tyres 710/40 22.5	○
Trailer hitches	○
Fenders	○

Cabin

SpaceCab™, ROPS, Highly pressurised and tightly sealed hyper viscous mounted cab with tinted safety glass windows, large roof window with sun shade, pull-up type front window with locking device, removable lower window, front window wiper with intermittent feature, sun roller blind, cigarette lighter, luggage shelf, floor mat	●
Heated air suspension seat with lumbar support, arm rests and retractable seat belt	●
Automatic climate control system	●
12/24 Volt power supplies	●
Beverage holder and magazine rack	●
Hot and cool box	●
Adjustable steering column	●
Premium comfort seat	○
DAB+ radio with Bluetooth®, USB, AUX and hands-free kit	○
Heated, adjustable, suspended seat	○
Lower wiper	○
Rain visor (not with OPG)	○
Joystick steering system	○

Safety equipment

KomVision surround view system	●
Electric horn	●
Overload warning device	●
Lockable fuel cap and covers	●
Audible travel alarm	●
Large handrails, rear-view mirrors	●
Battery main switch	●
Boom safety valves	●
Arm safety valve	●
Adjust cylinder safety valve	●
Emergency engine stop switch	●
OPG Level II front guard (FOPS)	○
OPG Level II top guard (FOPS)	○
Audible travel alarm (white noise version)	○

Lighting system

Standard halogen working lights package	●
LED working lights package	○
Advanced LED working lights package	○
Beacon	○

Service and maintenance

Automatic fuel line de-aeration	●
Double element type air cleaner with dust indicator and auto dust evacuator	●
Komtrax - Komatsu wireless monitoring system (4G)	●
Multifunction video compatible colour monitor with Equipment Management and Monitoring System (EMMS) and efficiency guidance	●
Toolkit	●
Komatsu Care – a maintenance program for Komatsu customers	●
Remote greasing bar	●
Automatic greasing system	○

Drives and brakes

Fully automatic 3-speed transmission driving through front and rear planetary axles	●
Oscillating front axle (8°) with automatic and manual cylinder locking	●
Cruise control	●
2.55 m wide undercarriage	●
2.75 m wide undercarriage	○
20, 25 or 35 km/h speed limitation	○
Transmission guard	○
Automatic digging brake	○

Work equipment

Mono boom	○
Two-piece boom	○
Boom floating	○
2100 mm; 2500 mm; 3000 mm arms	○
Komatsu breakers	○
Komatsu buckets	○

Other equipment

Standard counterweight	●
Electric refuelling pump with automatic shut-off function	●
Single chassis tool box	●
Additional chassis tool box	○
Clamshell grip bar	○
Biodegradable oil for hydraulic system	○
Customised paint	○
License plate holder	○

Further equipment on request

- standard equipment
- optional equipment
