

Discover the **WA380-7**

KOMATSU

A yellow wheel loader is shown from the side, dumping a large quantity of dark grey gravel. The gravel is falling from the bucket and forming a large, textured pile that fills the lower half of the frame. The background is a clear, light blue sky. The loader's bucket is yellow and is tilted downwards, with a stream of gravel falling from its edge. A portion of the loader's front wheel is visible in the bottom left corner.

Class Leading Value, Reliable & Versatile

Based on over 90 years of unbeatable worldwide experience, the WA380-7 is probably the most advanced, robust and comfortable wheel loader ever created by Komatsu.

In fact, it's unique.

Agile & Intelligent

Enjoy top productivity and impressive travel speeds with a new intelligent power train and the enhanced lock-up function of Komatsu's large capacity torque converter. Perfect for Load & Carry or V-Loading applications, the WA380-7 gives you extraordinary rimpull and an outstanding performance, even on steep grades or ramps.

10% Less Fuel

“Komatsu SmartLoader Logic” is the new fully automatic engine control in your WA380-7. It yields precisely enough torque for each work phase, for a lower fuel usage - and with no loss of productivity!

Also discover your machine's selectable engine modes, the adjustable idle shutdown and the new Eco-gauge's unique active recommendations.

Welcome to First Class

Low noise levels, a rear view monitoring system and a new high resolution monitor with enhanced and intuitive on-board diagnostics. A fully air suspended operator control station with an integrated EPC-lever console.

The WA380-7 perfectly combines safety and ergonomics with an unprecedented level of comfort.

At a Glance

Spacious cab. Perfect visibility with lowest noise and vibration levels.

Komatsu SAA6D107E-2 engine: EU Stage IIIB
– Powerful and extremely efficient with a variable-geometry turbocharger.

Monitoring system. Clear, intuitive layout and text displays, colour monitor for rear-view camera, Eco-Guidance.

Operator station. Integrated EPC-lever console with deluxe air suspended driver's seat.

Komatsu SmartLoader Logic.
Komatsu's new, fully automatic engine control regulates the torque on demand.

Komatsu diesel particulate filter.
With automatic active regeneration.

Hinged radiators and automatic reversing fan for fast and easy cleaning.

KOMTRAX

Perfect machine monitoring and comprehensive information via satellite – state-of-the-art wireless monitoring technology.

Large capacity torque converter with automatic lock-up.
Higher speeds, faster acceleration and reduced fuel consumption.

**KOMATSU
CARE**

The complimentary maintenance program for Komatsu customers comes with all EU Stage IIIB Komatsu machines.

WA380-7

ENGINE POWER

142 kW / 191 HP @ 2.100 rpm

OPERATING WEIGHT

18.130 - 18.650 kg

BUCKET CAPACITY

3,1 - 3,6 m³
